Seizing the Quantum Moment: A Policy Agenda for Global Leadership **[8]**

BSA TechPost [2] - Mon, 04/13/2026 - 20:39

World Quantum Day is a moment to recognize scientific progress — but for policymakers, it should also serve as a call to action. Quantum computing is advancing quickly toward real-world deployment, with the potential to transform sectors ranging from energy and finance to health care and cybersecurity. The policy window is open now. Governments that ... Read More >> [8]

Europe's AI Omnibus: Missing the Simplification Bus? **[11]**

BSA TechPost [2] - Wed, 04/01/2026 - 12:04

When ambition had to translate into action — specifically in the context of the Artificial Intelligence (AI) Omnibus proposal — the outcome fell far short of the promise. What was billed as "unprecedented" simplification now risks becoming little more than a symbolic gesture. Read More >> [12]

Cybersecurity Industry Leaders React to National Cyber Strategy [17]

BSA TechPost [2] - Wed, 03/11/2026 - 17:16

Following the release of President Trump's Cyber Strategy for America, BSA asked leaders from several member companies to share their reactions to the National Cyber Strategy in conversation with BSA Senior Director of Policy Henry Young. The strategy echoes several core BSA priorities, including aligning cyber regulations, adopting artificial intelligence (AI), upgrading to post-quantum cryptography, ... Read More >> [17]

The National Cyber Strategy: An Opportunity to Harmonize Regulations, Deliver a Stronger Economy, and Strengthen the Nation [18]

BSA TechPost [2] - Tue, 03/10/2026 - 16:49

The Trump Administration's new National Cyber Strategy makes one thing clear: cybersecurity is foundational to both economic growth and national security. By focusing on a targeted set of priorities, the Strategy elevates cybersecurity as a core strategic domain — not merely a compliance function. Read More >> [19]
